begins with an orientation session followed by a pre-training phase and training phase.

Students' understanding is assessed through soft skills, technical sessions, working on hands-on projects, and mock interviews and constructive feedback is provided throughout.

Finally, in the post-training phase, students who successfully complete the training process become eligible to apply their newly acquired skills by appearing for interviews — either for internships or full-time job opportunities, depending on their registration. Adherence to training schedules is mandatory, missing sessions may result in removal from the placement process.

Eligibility through Training Program:

To ensure a timely placement process, the duration of the training program has been capped at **4 months**. Students who do not complete the training within this period **(4 months/one term)** will not be eligible to sit for placements through Industry Interaction Cell.

Important Guidelines for Submitting Applications through the Portal

Students must submit the complete profile details on the portal and upload resumes in the prescribed format within the deadline, or their profiles will not be shared with hiring partners. Job announcements, including internships, apprenticeship and full time roles, will only be shared through the Official Placement portal, and shortlisting of the same will be managed by the IIC team.

A dedicated Whats app group and GSpace will provide timely updates on Internship/full time opportunities and interviews. Communication with hiring partners must go only through the IIC team, and any violations will be referred to the disciplinary committee.
